This is in response to Paper filed on 12 November 2004.

I. Applicants' arguments filed on 12 November 2004 are found to be convincing. Claims 6-12 are rejoined with the allowable two-part concentrate material claims 1-5 only since there is no longer two-part concentrates but is a singly diluted mixture in processing an exposed and developed image as demonstrated in the instant application that did not consider or search because there was no election of the process claims.

II. The translated Tables as submitted have been considered.
